|---------------------|--|
| Contributed equally |  |
|---------------------|--|

|   |   | Student 1 | Student 2 |
|---|---|-----------|-----------|
|   | Brought written solutions to questions 1-6 from the assignment description      |           |           |
|   | HMM0 – HMM3 OK in Kattis  |           |           |
|   | Wrote (parts of) the code   |           |           |
| E | Can explain the code  |           |           |
| D | Can answer basic questions about HMMs   |           |           |
|   | Brought written solutions to questions 7-10 from the assignment description     |           |           |
|   | Can justify all design decisions about the code                                 |           |           |
| C | Can answer more involved questions about HMMs based on empirical investigations |           |           |
|   | Duckhunt > 370 in Kattis  |           |           |
| B | Can answer advanced questions about HMMs  |           |           |
|   | Duckhunt > 370 in Kattis by Feb 5 <sup>th</sup> 2019, 8pm                       |           |           |
| A | Can suggest how to address modified versions of Duckhunt                        |           |           |
